- Emergency stop pushbutton

► **Product Description:**

Introducing our latest 22mm [Black Oxide Button](#) - designed for high current applications of up to 10Amps. With a sleek and modern design, this button supports flat head, ring LED and power symbol, as well as RGB tri-color options for added versatility. The black oxide finish provides added durability, making it ideal for use in rugged environments. This button is easy to install and compatible with a wide range of applications, including industrial control systems, automation equipment, and automotive electronics. Experience the quality and reliability of our 22mm Black Oxide Button, designed to meet your high-performance needs.

► **Product Model Specification:**

Model Description: HBDS1-D ☆ ○ □ ◇ ■ / ◆ / ◎ / ★ / ▲ / △

For example: HBDS1-D22C-11EZ/J/S/R/DC12V/R

HBDS1-D Series number	Yueqing Dahe company internal product code
☆ Mounting hole size	22: φ22mm;
○ Head shape	C: Concave; F: Flat round head;
□ Contact combination	11: 1NO1NC;
◇ LED type	E: Ring LED; ET: Ring and power symbol LED; P: Plastic big button surface without LED; DP: Plastic big button surface with LED; PT: Customized symbol without LED(Plastic); DPT: Customized symbol with LED(Plastic); No letters: Without LED
■ Operation type	No letters: Momentary; Z: Latching;
◆ Wiring Type	J: Pin terminal;
◎ Shell material	S: Stainless steel; PH: Engineering plastic;
★ Shell plating color	■ R: Red ■ G: Green ■ Y: Yellow ■ O: Orange ■ B: Blue □ W: White ■ H: Black
▲ LED voltage	AC/DC6V; AC/DC12V; AC/DC24V; AC/DC36V; AC/DC110V; AC/DC220V
△ LED color	■ R: Red ■ G: Green ■ Y: Yellow ■ O: Orange ■ B: Blue □ W: White ■ RG: Red+Green ■ RB: Red+Blue ■ RGB: Red+Green+Blue

►Product Size:

►Technical Parameter:

HBDS1-D22C black oxide button 22mm switch	
Product model :	HBDS1-D22C-□E(Z)/J/T
Mounting hole size :	22mm
Switch value:	Ith:5A(10A),UI:250V
Operation type:	Momentary,Latching
Contact configuration:	1NO1NC
Appearance material:	Head:Aluminum alloy color plating; Switch button surface:Aluminum alloy color plating; Base:Plastic PA66; Contact:Silver alloy;
Terminal type:	Pin terminal
Working environment temperature:	-25°C ~ +65°C
Connection form:	Supporting connector/Welding wire;
Lamp bead parameters	
Rated voltage :	6V/12V/24V/36V/110V/220V;(Other voltages can be customized)
Rated current:	≤20mA
Led color:	Red/Green/Yellow/Orange/Blue/White/RG/RB/RGB
Led life:	50000 hours
Protection grade:	IP65
Contact resistance:	≤50mΩ
Insulation resistance:	≥100MΩ
Electrical resistance:	AC2500V, 1min, no flicker and breakdown;
Life	
Mechanical Life: 0.5 million times for latching,One million times for momentary	

►Problems Encountered By Buyers:

Q:Can this button be illuminated?

A:“Yes, this button is designed to support ring LED illumination and power symbol options for added functionality and convenience.”

Q: Can the color of the illumination be changed?

A:“Yes, this button supports RGB tri-color options for added versatility and customization.”

Q:Can this button be customized with a specific logo or design?

A:“Thank you for your interest in our black oxide button. We do offer the option for customers to include a specific symbol header on the button. To proceed with this option, we would require a file of the symbol to be provided to us. The file should be in a specific format that meets our requirements, and we can provide you with the specifications for this file. Please contact us for more information on how to proceed with a custom symbol for your button.”
