Main selling

●Metal push button

●Signal lamp

●High current switch(Xb2,LA38)

●Micro button switch

●Emergency stop pushbutton

►Product Description: Superior Performance in a Compact Design

Introducing our 22mm **black momentary push button switch**, a reliable and versatile component designed to meet your specific needs. Whether you're seeking momentary or latching operation, this switch has you covered. Crafted with precision and attention to detail, it offers exceptional performance in a compact package.

Robust Construction for Durability

This switch is built to last. With a mounting hole of 22mm and a sturdy aluminum alloy shell, it can withstand the most demanding environments. The electroplating oxidation finish not only adds a touch of elegance but also provides extra durability against wear and tear.

Multi-Color LED Options

Customize your visual indicators with our black momentary push button switch. It comes with LEDs in red, green, and blue. Additionally, if your application demands tri-color LEDs, we can provide that too. These LEDs offer clear and distinct feedback for your control systems.

Waterproof and Versatile Contact Configuration

With an IP67 waterproof rating, this switch can handle wet and dusty conditions without compromising functionality. It features 1NO1NC contact configuration, ensuring compatibility with various applications.

Easy Installation with Connector Included

For your convenience, each switch comes with a pin terminal connector, making installation a breeze. We believe in delivering not just outstanding products but also a hassle-free experience for our customers.

Choose Quality and Reliability

When you opt for our black momentary push button switch, you're choosing quality and reliability. This switch is meticulously engineered to provide consistent performance, and its versatile design ensures it can meet your specific requirements.

Upgrade Your Control Systems

Ready to enhance your control systems with the versatile and durable 22mm black momentary push button switch? Look no further. Contact us today to learn more and explore how this switch can elevate your applications.
